ABOUT ME

I am an engineering undergraduate passionate about Software Engineering, and started programming at the age of 13. My current interests are Android app development and backend web development. I am also actively involved with and passionate about Open Source.

EXPERIENCE

DJANGO | OPEN SOURCE CONTRIBUTOR

January 2020 – Present | GitHub PRs: [django/django/pulls](#)

- Reported and fixed a release blocking bug related to concurrent select and update on tables.
- Fixed a bug related to redundant SQL queries being generated when inserting a new row.
- Made other contributions to improve the Django codebase and documentation.

CUEMATH | SUMMER INTERN

May 2020 – June 2020 | Bangalore, India

- Worked on creating Spatial Reasoning puzzles with the content creation team at CUEMATH aimed at school children (6-12 years)
- Worked on the backend of a web platform to crowd-source useful learning resources and materials related to any topics. Backend was built using Django along with Django REST Framework.

PROJECTS

CMS-ANDROID | OPEN SOURCE MOODLE CLIENT FOR ANDROID

May 2019 - Present | GitHub: [crux-bphc/CMS-Android](#)

- Maintainer of an open source Moodle client for Android.
- Vital part of student academics, allows students to stay updated with announcements from professors.
- 3000+ active users.

SMARTCAMPUS | A MOBILE APP FOR A SMARTER CAMPUS

September 2019 - Present

- Built backend for SmartCampus, a mobile service to buy food inside campus.
- Used Django and Django REST Framework to build the web application, PostgreSQL for the database.
- Deployed onto Digital Ocean.
- Facilitated 150,000+ transactions worth approx. ₹1.5 million (\$22,000).
